LOTION PERSIENNE

Pour blanchir le teint, lui rendre ou conserver sa couleur de rose, faire disparaître les rousseurs, le masque et autres taches de la peau,

La ***LOTION PERSIENNE*** **est une préparation sérieuse, unique en son genre. C'est un véritable REMÈDE pour la peau. Ce n'est pas une poudre blanche, délayée dans de l'eau ou de l'essence. La Lotion Persienne, au contraire, est une préparation médicinale, transparente et limpide comme de l'eau.**

Lorsque la peau est *brunie par le soleil*, la Lotion Persienne lui rend promptement sa fraîcheur et son teint rose, en ajoutant une cuillérée tous les matins à l'eau pour se laver.

La Lotion Persienne se vend dans toutes les bonnes pharmacies de la Puissance, en bouteilles de 50 cents. Méfiez-vous des contrefaçons.

S. LACHANCE, PROPRIETAIRE,

Primes sur les Monnaies.

Pourquoi certaines monnaies commandent-elles une prime sur leur valeur intrinsèque ?... Cette question est souvent posée par ceux qui ne sont pas au courant de l'extension du goût de la numismatique. Il y a des milliers de collectionneurs recrutés parmi toutes les classes de la société, depuis l'humble artisan jusqu'au millionnaire, et le fait que tous ces amateurs sont à la recherche d'un spécimen de chaque pièce émise, de chaque date, de chaque variété enfin, est l'explication bien naturelle que beaucoup ne peuvent se procurer certaines pièces qui disparaissent de la circulation par le fait qu'elles sont recherchées, et par conséquent prennent une valeur plus ou moins grande suivant la demande. Donc, la grande demande des monnaies a créé, non seulement des collectionneurs mais aussi des marchands de monnaies qui règlent les prix de chaque pièce d'après leur rareté et d'après les prix réalisés dans les ventes par encan qui se font de temps à autre aux Etats Unis, en Angleterre, en France ou ailleurs.

La condition d'une monnaie a bien souvent plus d'effet dans sa quotation que sa date; quand même une monnaie daterait de deux mille ans, si elle est en mauvaise condition, elle ne vaudra peut-être pas autant qu'une autre émise il y a vingt ans, mais très bien conservée.

L'idée générale répandue dans le public est que plus une monnaie est ancienne plus elle a de la valeur ; eh bien, presque toujours c'est le contraire qui arrive.

Où puis-je vendre mes sous rares?... est une autre question fréquemment posée par celui qui, quoique n'étant pas numismate, possède certaines pièces de valeur, et par conséquent ne tient pas à les garder... En réponse, je leur dirai qu'il y a un bon nombre de collectionneurs désireux d'acheter les pièces qui leur manque ; mais comme le public n'est pas en relation avec tous ces collectionneurs, il peut disposer de ses pièces à un marchand de monnaies.

Inutile d'expliquer qu'un marchand de monnaies ne peut payer d'aussi forts prix que l'amateur à qui il ne manque que quelques pièces et qui désire se les procurer; chacun comprendra cela assez facilement. De plus, le marchand est obligé de porter un fort stock de monnaies, ce qui l'oblige de payer des prix plus modérés.

A cela, j'ajouterai que P. N. Breton & Cie, No 9, rue Labelle, à Montréal, sont marchands de monnaies et offrent de payer les prix

mentionnés dans ce livre pour un ou plusieurs spécimens d'aucune pièce illustrée, d'autant que les pièces seront dans les conditions voulues.

Les monnaies ne seront achetées que des personnes qui auront acheté ce livre.

Tout de même, P. N. Breton & Cie se réservent le droit de refuser l'achat de toute pièce qui pourrait avoir perdu sa rareté.

Il est très important pour ceux qui désirent vendre des monnaies, de se pénétrer du fait qu'une monnaie peut valoir différents prix par son état de conservation. Ainsi, dans ce livre, il y a dans la liste des prix trois colonnes de valeurs plus ou moins différentes; le prix est fixé d'après la conservation qui est désignée par *Médiocres—Bonnes —Excellentes.* Ainsi, prenons le numéro 1 de ce livre comme exemple. Si cette pièce est en condition médiocre, elle vaudra vingt-cinq piastres; si elle est en bonne condition, elle vaudra cinquante piastres; et si elle est en excellente condition, elle vaudra cent piastres.

Voici ce que l'on entend par ces trois degrés de conservation, ainsi.

MÉDIOCRES.

Une monnaie est appelée *médiocre* si elle est un peu usée, mais que tous les dessins, dates, lettres, etc. sont lisibles.

BONNES.

Une monnaie est appelée *bonne* si tous ses dessins, dates, lettres, etc., sont montrés dans les parties les plus fines du travail.

EXCELLENTES.

Une monnaie est appelée *excellente* si elle est presque dans l'état de son émission, c'est-à-dire qu'elle ne montre aucune trace de circulation.

Les pièces percées ne sont pas acceptées des collectionneurs, hormis qu'elles seraient d'une grande rareté ou qu'il serait impossible de se les procurer autrement.

Aux Chercheurs de Monnaies rares.

Ne vous découragez pas si, après avoir acheté ce livre, vous ne trouvez pas une pièce de grande valeur immédiatement. Rappelez-vous que, si une monnaie était commune, elle ne serait pas rare, et

que la valeur d'une pièce dépend de sa rareté ou de la difficulté plus ou moins grande qu'il y a à se la procurer.

Nous connaissons des personnes qui, pendant plusieurs années, ont recherché des sous rares sans succès et qui, tout à coup, ont trouvé des monnaies valant des centaines de piastres.

Une attention toute spéciale devrait être portée par tous les marchands, commerçants, etc., sur leur recette de tous les jours, car un grand nombre de sous, sans valoir trente ou cinquante piastres, valent deux, trois ou cinq centins ou plus, ce qui est un beau bénéfice de cent à quatre cents par cent, cela vaut bien la peine d'y consacrer quelques instants.

Règles à suivre pour l'envoi et la vente des Monnaies.

Les personnes désirant vendre des monnaies devront :

1° Nous envoyer une liste des numéros, la quantité et le degré de conservation des pièces.

2° Inclure un timbre poste de trois centins pour la réponse.

3° Si nous leur répondons de nous adresser les pièces, il faudra les empaqueter et les adresser soit par lettre enregistrée ou par express, frais de transport payés d'avance, et si nous trouvons les pièces telles que désignées dans la liste, nous enverrons le paiement aussitôt.

4° Aucun envoi ne devra nous être fait sans notre avis.

5° Nous ne serons pas responsables des envois qui ne seront pas adressés comme ci-dessus mentionnés.

6° Comme beaucoup de sous ne diffèrent que par une légère différence, il ne faudra pas vous croire infaillibles, si l'on vous reconnaît en erreur en nous mentionnant un numéro pour un autre. Dans la collection des bouquets *Un sou*, il en existe 47 variétés différentes et parfois une feuille de plus ou de moins, ou même un point, est suffisant pour en changer la valeur. Des collectionneurs ont quelquefois de la difficulté à s'y reconnaître ; dans ce cas, pas besoin de vous formaliser si vous vous trompez.

7° Lorsque nous recevrons des envois et qu'il y aura erreur dans les pièces tel qu'expliqué dans l'article *six* ci-dessus, nous vérifierons l'erreur et ne ferons remise que pour les valeurs réelles.

8° Nous n'achetons pas les pièces qui ne sont pas illustrées et mentionnées dans ce livre.

9° Adressez vos lettres, paquets, etc., à

Premiums on Coins.

Why is it that certain specimens of coins command a premium over their par value ?... This question is frequently asked by those who are not acquainted with the extent of the Numismatic taste. There are thousands of collectors, and they are to be found among all classes, from the humble artisan to the millionnaire, and the fact that they are all searching for a copy of each piece, each date and each variety is a good explanation that some of these amateurs cannot obtain certain coins who disappears from circulation being much looked for and thus obtain a certain value according to the demand. Like other articles of merchandise, the demand and supply has created not only collectors, but dealers who regulates the price of each piece from its rarity and also from prices realized at coin auction sales from time to time in the United States, England, France and other countries.

A most essential criterion of value of a coin is its condition.

Contrary to general belief the date is of but little consideration as compared with the state of preservation. Age of a coin is but a slight factor ; for instance, some coins two thousand years old if in poor condition are not worth as much as others struck during the last century if in good condition.

Where can I sell my rare coins ?... is a question frequently asked by a man expert who has numismatically valuable specimens, but who does not care about keeping them, and wishes to dispose of such at the best prices available. There are numerous collectors who are likely to buy specimens lacking in their collections but they are not always known to the general public, so there are dealers who are always ready to buy, of course you cannot expect those dealers to pay as high a price as a private amateur who will only buy his wants, you must consider that the dealer has to carry a large stock and thus will pay reasonable prices. I may state here that P. N. Breton & Co., No 9, Labelle Street, Montreal are dealers in Coins, and offers to pay the prices mentioned in this book for one or more copies of any coin illustrated or mentioned in this book as long as they will be in the condition stated.

They will only buy coins, from persons who have purchased this book.

P. N. Breton & Co., reserves the right to refuse any coin who should have lost its numismatic value and become common.

It is very important for those desiring to sell coins to verify first

their state of preservation, as the same coin may be worth more or less according to its condition. You will find in this book three columns with heading—Fair—Good—Fine—for instance take No. 1 of this book, if in *fair* condition we will pay twenty five dollars for it; if in *good* condition, we will pay fifty dollars and if in *fine* condition one hundred dollars.

The following definitions of numismatic expressions used herein are of the utmost importance and should be carefully noted.

The three degrees of preservation is thus:

FAIR COINS.

A coin is classed as in *fair* condition, if the designs, dates, lettering and other such features are clearly visible.

GOOD COINS.

A coin is in *good* condition, if the designs, dates, lettering, etc. are shown plainly, even to the finer lines.

FINE COINS.

A coin is in *fine* condition, if it shows no trace of circulation.

Pierced coins are not desirable, except being of very rare issues.

To rare Coin seekers.

Do not be discouraged if, after buying this book, you should not happen to find a valuable coin immediately. Remember that if a coin were common, it wouldn't be rare, and it is upon the scarcity of a certain kind of coin that the value depends.

We know of persons who have kept their eyes open for scarce coins for several years without success, yet ultimately found a coin worth hundreds of dollars.

All merchants, dealers, etc, should pay attention to their daily cash as a good many coins although not selling at very high figures, are worth from two to five cents or more, leaving thus a clear profit of from one to four hnndred per cent, which should be a sufficient inducement to devote to it a few moments every day.

Rules for the sale and for sending Coins.

Persons desiring to sell coins shall :

1° Send us a list of the numbers, quantities and degree of preservation.

2° Always enclose a three cent stamp for reply.

3° If we answer to send the coins, they should be carefully packed and sent by registered mail or express prepaid in advance, and if we find the invoice, as stated in the list, payment will be sent at once.

4° No coins should be sent to us without our consent.

5° We shall not be responsible for coins sent us without being registered or sent by Express.

6° As a great number of coins only differs by very slight differences in the dies, you must understand that you are liable to make errors in mentioning a coin for another, for instance in the serie of bouquets "*Un sou*" there are 47 different varieties existing and sometimes one dot, or a rose bud or any other slight difference may give a variety a considerable value. When collectors themselves make errors, you can easily understand that you may be mistaken also.

7° When we receive consignments and that some errors are made as above stated, we shall verify the error, and remit only for the real value of the coins received.

8° We only buy coins illustrated or mentioned in this book.

9° Address all communications, consignments, etc., to

Du temps de la Domination française, l'argent était parfois si rare qu'il a fallu faire de la monnaie avec des cartes à jouer pour payer les troupes; le saviez-vous? Eh bien, lisez l'Histoire Illustrée des Monnaies du Canada et vous y trouverez que la partie illustrée sur la monnaie de carte est une des pages les plus intéressantes de notre histoire. Prix, $1.00
